#### TDY Award

#### TDY Assignee

If you are an assigned TDY pilot, contact Pilot Crew Scheduling prior to the TDY month to arrange a positioning TDY deadhead. You are entitled to a positioning deadhead (A1D) at the beginning and end of the TDY month.

1. This deadhead can be in conjunction with a legal sequence or a deadhead only sequence. If you are given a deadhead only sequence, once it's placed in your line, you are not permitted to trade or drop this sequence.
2. If you suspect that your schedule does not provide sufficient time to transfer and to receive legal rest either positioning into or de-positioning from TDY base, please contact Crew Scheduling to resolve the conflict. Crew Scheduling will evaluate and review available options.

#### TDY Proffer

If you are a proffered TDY pilot, you are responsible to schedule your own deadhead prior to your TDY month.

### COVID Vaccine Required Pairings

The list of pairings and stations that require the COVID Vaccine (list is available when PBS opens):

[AAPilots>AA Bidding Tools>Reference Material>PBS>COVID Vaccine Required Pairings](#)

### Blocked IOE Pairings

The list of pairings selected for training and are not available for PBS bidding (list is available when PBS opens): [AAPilots>AA Bidding Tools>Reference Material>PBS>IOE Pairings](#)

### Prior Month Removal (Changeover) Pairings

Prior Removal Pairings are pairings that originate in the current month (they were included in bidding last month), fly through into next month, and were modified as a result of a schedule modification or other disruption. As a result, if you have one of these affected pairings on your current schedule, your calendar in PBS will not initially display correctly, including an incorrect carry-in credit, which may affect your bid. Once FOS is updated, the old pairing (PREV) will be replaced with the new pairings (CHGOVR) and PBS will be updated as well so that the calendar and award in PBS will be correct.

The table below is a list of Prior Removal Pairings that affect the coming month in your bid status. Please check your current schedule to see if you have one of these pairings at the end of the current month. If you do, look up the new pairings in the bid package (CHGOVR) and bid

BOS – BOSTON

considering that it will replace the old pairing prior to the PBS award. You may log back into PBS after about 1000 on the 12th to view an updated calendar with the new pairing displayed.

## POST PBS

### Reserve Modification

There are instances where the PBS software is unable to make a JCBA-compliant reserve award. In these instances, PBS will leave the award blank. The PBS administrators will contact pilots that fall into this situation shortly after bids are published to inform them about the blank award, which will be rectified through a manual process. The pilots will be asked to contact their Base Planner beginning on the 18th after schedules are loaded into FOS and will jointly resolve the award.

### Hybrid Awards

Please direct Hybrid communication to [Pilot.Hybrid@aa.com](mailto:Pilot.Hybrid@aa.com)

[AAPilots>AA Bidding Tools>Reference Materials>Bidding Information> Hybrid Request Form](#)

As a part of the PBS process, you may receive a Hybrid line award, which consists of a combination of pairings and available "Hybrid Days". Initially, a Hybrid award will be identified simply as being a low line – the value will be below the bottom of the Line Construction Window.

As a reminder – you cannot bid for a Hybrid line. They are awarded when the PBS software cannot complete a line of flying within the line construction window without violating the seniority of a more senior pilot. In this case, if the CREDIT is at least 50% of the bottom of the LCW, a Hybrid is awarded in lieu of reserve, provided a pilot has bid appropriately. The number of days is determined by dividing the difference in your line value and the bottom of the LCW by the Daily Average Credit Value (DACV) for your bid status. Round up to the next whole number to determine the days of obligation. You are also pay protected to the DACV for those Hybrid Days. Refer to the DACV table for the value for your bid status.

Refer to the Hybrid Line Award Procedures document on the AAPilots PBS page for more detailed information.

Minimum Connection Times – Recovery Obligation Implementation

Starting with the implementation of Recovery Obligation in mid-November, the Minimum Connection Times (MCTs) listed below will be used to determine whether a misconnect may be declared. These times are used for PBS sequence construction and serve as the monthly threshold for misconnects.

Per Section 4.C.1.f, a pilot will not be removed as a misconnect if their connection time meets or exceeds the published minimum. Flying with a connection time below the published MCT may be removed or repaired at the Company’s discretion, in which case the pilot may be subject to Recovery Obligation.

Going forward, you will find this table published monthly in the PBS Bid Packet, as well as on AAPilots > AA Bidding Tools > Reference Material > PBS

# **RESERVE PRIMARY BIDDING PROCESS**

## **DECEMBER 2025**

### **Reserve Classification**

#### **Long Call Reserve (LC RSV) pilot**

The LC RSV line is awarded in PBS. LC RSV pilots can only be Awarded/Assigned sequences or RAPs with a minimum of twelve (12) or fourteen (14) hours, as applicable pursuant to 15.J.1.h., between Award/Assignment and sequence sign-in or RAP start

Long Call Reserve (LC RSV) pilots will not be awarded monthly post-DFP/planned absence RAPs and therefore do not participate in the Secondary Bidding Process.

#### **Short Call Reserve (SC RSV) pilot**

The SC RSV line is awarded in PBS. SC RSV pilots are normally assigned sequences within a RAP with less than twelve (12) hours between sequence assignment and sequence sign-in.

Short Call Reserve (SC RSV) pilots will be awarded/assigned a RAP on Reserve Available days that follow a Duty Free Period (DFP) or the closed (end) of a planned absence.

The Monthly Bid RAP table will be published in two locations, AAPilots and Pilot DOTC/RAS UI no later than **20NOV25**.

- [AAPilots>AA Bidding Tools>Reference Material>Bidding Information>Pilots Awarded Short Call Reserve for DECEMBER 2025](#)
- [Pilot DOTC/RAS>RAS>RAP Ballots>Monthly RAP Bidding>Published RAP Start Times](#)

Daily RAPS: Standing or date specific RAP preferences are considered for daily open time coverage proffers and procedures. SC RSV pilots wishing to enter daily RAP preferences may submit either standing or date specific RAP preferences. LC RSV pilots who wish to volunteer to be converted to SC can also submit standing or date specific RAP preferences. In addition to selecting RAP preferences, a LC RSV pilot must turn the convert to SC toggle on in the Pilot DOTC/RAS UI.
